GARRETT LEIGHT
CALIFORNIA OPTICAL

RESORT 2012

Garrett Leight California Optical is and has always been a passion project inspired by what I believe to be the essence of true Californian spirit, Freedom; The freedom to think, to dance, to create, to walk, to run, to play, to simply live life to its fullest. It represents all that is beautiful, youthful, and natural. Garrett Leight California Optical is vivacious and full of life.

After embracing classic American Heritage in our first collection, this season we wanted to pay tribute to our California Heritage. Our designs are specifically inspired by classic coastal living from motorcycle riding movie characters of the 1950's, 60, and 70's to the effortlessly beautiful vintage California beach blonde. The collection encompasses large acetate wrapped frames with attitude, as well as thin, comfortable, and clean optical frames.

THE KINNEY

Kinney is the union between Rialto and Brooks, taking the best of both feminine and masculine qualities from both frames and combining them into one. Kinney is clean, classic, comfortable, and simply offers another option for people who love this style.

THE STRONGS

If Speedway had a partner in crime it would be the Strong's. Strong's is the boisterous and raucous brother with a short fuse and no time for bullshit. Strong's is an original design that is a character-defining frame made for people with original style and a strong sense of who they are and what they want.

THE SUPERBA

It's not always about thin, clean, and simple. Superba represents California to the fullest in that it's a thick classic acetate wrap frame, perfect for the motorcycle ride into the sunset or an athletic day on the beach. Superba is reminiscent of an American made frame worn by Clint Eastwood in Dirty Harry, but with even more attitude.

If Brooks is the patriarch of the family then consider Rialto to be its partner. A graceful elegant shape inspired by oversized optical frames of the 1980's, most commonly worn in England. Rialto represents a look that is soft, delicate and most importantly alluring. Rialto is definitely built to last.

THE SPEEDWAY

Speedway is clearly the rebel, the outcast, or simply the individualist. Not your typical aviator, Speedway was specifically inspired by a frame worn by Gonzo journalist Hunter S. Thompson in the late 1960's and worn consistently through the 70's, 80's, and 90's. Also named after a street neighboring the Venice boardwalk, an area made famous by Jim Morrison and The Doors.
